

SLICE6 DAS QUICK REFERENCE CHART

	SLICE6	SLICE6 HB
6 analog input channels	√	√
Piezo-resistive and voltage sensor support	√	√
100 g shock rated	√	√
Store-in-place data recording	√	√
Daisy-chain for higher channel count tests	√	√
Configurable for on-board and in-dummy applications	√	√
In-dummy DAS for THOR frontal impact ATD	√	
In-dummy DAS for U.S. Army WIAMan blast ATD*		√
High bandwidth and high sampling		√
Local Supercap emergency power backup		√
500 g shock rated		√
Shielding for EMP, RFI, blast environment		√
IEEE 1588 PTP timing		√
IP51 rated		√

*NOTE: SLICE6 HB and associated instrumentation, wiring and distribution components to support blast site use are specifically designed for the U.S. Army WIAMan and are not offered for commercial sale.
